# OLEKSII SHEVCHENKO
# FULL STACK DEVELOPER

## CONTACT INFORMATION

✉ Email: uzlabini@gmail.com

📞 Phone: +420 775-919-635

in LinkedIn | ⓖ GitHub

🏠 Location: Prague, Czech Republic

## TECH SKILLS

- Frontend: HTML5, CSS3, SASS, JavaScript, React
- Backend: Node.js, Express.js, Python, TypeScript
- Databases: MongoDB, SQL, Oracle
- Version Control: Git, GitHub
- Tools & Methodologies: REST API, Parcel, Jira, TestRail, Scrum, Trello, Figma

Passionate Full Stack Developer seeking a permanent role in an innovative IT company. I thrive on solving complex problems and building efficient, user-friendly applications. My approach combines technical expertise with a strategic mindset, ensuring seamless development from front to back.

## Frontend Expertise:

🚀 Crafting intuitive and responsive UI using **HTML, CSS, and JavaScript**

⚛ Building dynamic and scalable applications with **React**

🎨 Focusing on clean design and smooth user experience

## Backend & Database Mastery:

🔧 Developing robust server-side logic with **Node.js**

📋 Managing data efficiently with **SQL and Oracle**

🖥 Ensuring smooth workflow and tracking with **JIRA & Omnitrack**

## PROJECTS

- Portfolio, Link *(HTML5, CSS3, React.js, AJAX, Axios)* – Responsive portfolio showcasing my projects.
- Python-Game: War Goose *(Python, pygame)* – A simple children's game built in Python.
- Letenky. Link *(HTML5, CSS3, React.js, REST API, Axios)* – User registration and private contact collections.
- Movies search, Link *(React.js, REST API)* – Movie search app using TheMovieDB API.
- Clicker-Game, Link *(JavaScript, SASS)* – Interactive clicker game with an orc timer challenge.
- Filmoteka, Link *(JS, Node.js)* – Team project, adaptive movie catalog site.
- WebStudio, Link *(JS, SASS)* – Adaptive business website project.
- IceCream, Link *(JS, SASS)* – Team project for an ice cream brand with adaptive layout.
- Backend Project *(Node.js, Express, MongoDB)* – A scalable backend system.
- API Data Collector *(Node.js, JavaScript, Axios)* – Handles API limitations to ensure complete data collection for analysis. Uses asynchronous functions with Axios for efficient server requests.
- In addition, there are many educational projects that I use when teaching IT courses. All of them are on my GitHub.
